FOOD AND DINING PROGRAM

Sysco is the global leader in selling and distributing food products to restaurants, healthcare and educational facilities. They provide top-quality products designed to meet the specific needs of your team and your residents. They have expertise in areas from food and beverages to supplies, equipment, and systems.

Compass Community Living - Hospitality Group is at the forefront of dining, community management and environmental services for the healthcare and senior living industries. CCL serves hospitals, retirement communities and integrated healthcare systems with services that range from foodservice to environmental services and laundry service, helping to streamline the operations of these care communities.

Gordon Food Service is known for their contributions in servicing just about any business that serves food.

GFS adapts to each community's needs by helping with menu-planning, back and front of house procedures, and employee safety. All of these steps are taken to ensure that the food offering the best quality and value is available to senior living communities.
